

*Fulfilling Our Promise*

# Steere House

NURSING & REHABILITATION CENTER

November 10, 2020

Dear Family and Friends of Steere House,

This is an update regarding our Covid-19 status at Steere House. At this time Steere House has a dedicated Covid Unit, in a distinct area which isolates these individuals (5-8). Our caregiving team is specifically assigned to this unit and are familiar with procedures for those individuals who are positive for Covid.

\*The staff have all the equipment they need and will continue to do so.

\*ALL residents were tested yesterday. IF your loved one is positive, you will be contacted by a clinician such as a nurse or physician.

\*ALL employees will be tested today and tomorrow.

\*Steere House has rapid test equipment to use when appropriate.

\*We continue to receive guidance from the Department of Health.

\*Our team continue to provide ongoing staff education.

\*Per RI Dept. of Health guidance, our visitations on-site have been suspended. However, Virtual Visits are taking place.

\*Please make arrangements for Virtual Visits by email to: [GWillimason@SteereHouse.org](mailto:GWillimason@SteereHouse.org).

Steere House truly appreciates your patience and understanding of the steps we must take for infection control mitigation. I know that you, your family and the Rhode Island Community are making every effort to join us in the battle to fight the spread of Covid.

Stay Well & Be Safe,

Julie H. Richard  
Administrator/Executive Director
